Esteban Santiago Pizzani

I study physics in the Universidad de Buenos Aires (UBA). Learned how to code on Platzi, and I take their courses to improve my abilities and master new technologies like JavaScript, React and Tailwind.

Experience

Frontend developer

Current

For my personal projects

Coded personal projects, like a fully working e-commerce about guitars, a website that showcases science videos, and my own personal portfolio website.

Whiteboard video animator

September, 2021 - November, 2021

Universidad Austral | Argentina (remote)

Worked making an MBA online course. It contains 36 videos in total, which I had to deliver in a timespan of 2 months.

Main frontend developer

April, 2022 - June, 2022

Istmo Consultores | Argentina (remote)

I redesigned their main website from scratch. I made the design on Figma, and coded the website with a mobile first design scope in mind.

Freelancer at Fiverr

June, 2020 - Present

Fiverr | Worldwide (remote)

I create whiteboard video animations, using VideoScribe and Adobe Premiere Pro. I completed more than 90 jobs for clients all over the world; I have a 5 stars reputation as a seller thanks to their reviews.

EDUCATION

Curso de React.js:

March, 2022

Patrones de Render y Composición

Platzi

State, composition, rendering, effects, hooks and custom hooks, reducers, local storage, portals and HOC in React. Applied all that in a todos app project.

Curso de Responsive Design:

August, 2021

Maquetación Mobile First

Platzi

Sharpened my skills while coding websites with a mobile first focus. Learned how to use media queries, relative measures, flexbox and grid on CSS.

Curso Práctico de JavaScript:

August, 2021

Platzi

Learned about the scope, functions, conditions, cycles, arrays, objects, promises and asynchronous functions.

Curso Definitivo de HTML y CSS:

August, 2021

Platzi

Reinforced concepts, methods, good practices and accessibility measures that should be used while writing code on HTML and CSS.

Skills

React | JavaScript | HTML | CSS |
SASS or SCSS | Tailwind | Git |
GitHub | NodeJS | Vite | Webpack
| NPM

Languages

Spanish: Native
English: Bilingual
German: Level B1

Interesting project
